Subject index

Absorption
Thermodynamic and electrode kinetic factors in cathodic hydrogen sorption into metals and its relationship to hydrogen adsorption and poisoning (Conway, Jerkiewicz) 47
Adsorbed copper
EXAFS studies of adsorbed copper on carbon-supported platinum (McBreen) 373
Adsorption
Thermodynamic and electrode kinetic factors in cathodic hydrogen sorption into metals and its relationship to hydrogen adsorption and poisoning (Conway, Jerkiewicz) 47
The adsorption of methionine at a mercury electrode from aqueous solution (Parsons, Payne) 327
Ag electrodeposition
The role of slow surface-atom reordering processes in the underpotential deposition of metals. Silver underpotential deposition on platinum in acid solutions (Ocón et al.) 339
Ag + Pd alloys
Identification of phases in Ag + Pd alloys electrodeposited by the electrochemical ALSV technique (Jović et al.) 357
Aluminium
Hydrogen evolution on aluminium in chloride solutions (Dražić, Popić) 105
Amino acids
The adsorption of methionine at a mercury electrode from aqueous solution (Parsons, Payne) 327
Anodic linear sweep voltammetry
Identification of phases in Ag + Pd alloys electrodeposited by the electrochemical ALSV technique (Jović et al.) 357
Anodic oxidation
Products in solution during electrodeposition of polypyrrole (Fermín, Scharifker) 273
Atomic force microscopy
In-situ and real time monitoring of the InSe surface by atomic force microscopy with atomic resolution during electrochemical reactions (Uosaki, Koinuma) 301
Atomic resolution
In-situ and real time monitoring of the InSe surface by atomic force microscopy with atomic resolution during electrochemical reactions (Uosaki, Koinuma) 301

Bisulfate adsorption
Adsorption of anions on ultrathin metal deposits on single-crystal electrodes. Part 3. Voltammetric and radiochemical study of bisulfate adsorption on Pt(111) and Pt(poly) electrodes containing silver adatoms (Zelenay et al.) 307

Carbon supported platinum
EXAFS studies of adsorbed copper on carbon-supported platinum (McBreen) 373
Catalytic poisoning
Hydrogen pressure equivalent to overpotential on Pd + Ag alloy electrodes in acidic solutions in the presence of thiourea (Enyo, Biswas) 67
Cathodic performance
Cathodic behaviour of IrO_2 electrodes in alkaline solution. Part 2. Kinetics and electrocatalysis of H_2 evolution (Chen, Trasatti) 91
Chalcocite
Underpotential deposition of dithiophosphate on chalcocite (Buckley, Woods) 387
Charge effects
The adsorption of methionine at a mercury electrode from aqueous solution (Parsons, Payne) 327

Charge transfer
Enzyme electrodes based on ionomer films coated on electrodes (Harkness et al.) 261
Chemisorption
Underpotential deposition of dithiophosphate on chalcocite (Buckley, Woods) 387
Chloride solutions
Hydrogen evolution on aluminium in chloride solutions (Dražić, Popić) 105
Cold fusion
Hydrogen pressure equivalent to overpotential on Pd + Ag alloy electrodes in acidic solutions in the presence of thiourea (Enyo, Biswas) 67
Crystalline Pt electrodes
The role of slow surface-atom reordering processes in the underpotential deposition of metals. Silver underpotential deposition on platinum in acid solutions (Ocón et al.) 339

Deuterium sorption
Thermodynamic and electrode kinetic factors in cathodic hydrogen sorption into metals and its relationship to hydrogen adsorption and poisoning (Conway, Jerkiewicz) 47
Dioxygen reduction
Electrocatalysis of aqueous dioxygen reduction (Appleby) 117
Dithiophosphate
Underpotential deposition of dithiophosphate on chalcocite (Buckley, Woods) 387
Doped polypyrrole
Evaluation of the first discharge redox process of doped polypyrrole (Beck, Dahlhaus) 289

Electrocatalysis
Cathodic behaviour of IrO_2 electrodes in alkaline solution. Part 2. Kinetics and electrocatalysis of H_2 evolution (Chen, Trasatti) 91
Electrocatalysis of aqueous dioxygen reduction (Appleby) 117
Enhanced electrocatalysis of oxygen reduction on platinum alloys in proton exchange membrane fuel cells (Mukerjee, Srinivasan) 201
Electrochemical dissolution
Identification of phases in Ag + Pd alloys electrodeposited by the electrochemical ALSV technique (Jović et al.) 357
Electrochemical impedance spectroscopy
Analysis of electrochemical impedance spectroscopy data for lithium electrodes and lithium batteries (Bagotzky) 251
Electrochemical polarization
Kinetics of oxygen reduction on fully and partially immersed Pt, Pd and Au electrodes in an NaCl + KCl eutectic melt (Numata et al.) 181
Electrodeposition
Products in solution during electrodeposition of polypyrrole (Fermín, Scharifker) 273
Enzyme electrodes
Enzyme electrodes based on ionomer films coated on electrodes (Harkness et al.) 261
Equivalent hydrogen pressure
Hydrogen pressure equivalent to overpotential on Pd + Ag alloy electrodes in acidic solutions in the presence of thiourea (Enyo, Biswas) 67
EXAFS
EXAFS studies of adsorbed copper on carbon-supported platinum (McBreen) 373

First discharge curve
Evaluation of the first discharge redox process of doped polypyrrole (Beck, Dahlhaus) 289
First discharge process
Evaluation of the first discharge redox process of doped polypyrrole (Beck, Dahlhaus) 289
Frumkin isotherm
Underpotential deposition of dithiophosphate on chalcocite (Buckley, Woods) 387
Fuel cells
Kinetics of oxygen reduction on fully and partially immersed Pt, Pd and Au electrodes in an NaCl + KCl eutectic melt (Numata et al.) 181
On solid polymer fuel cells (Dhar) 237

Gas diffusion
Characterization of the limiting structural effects on the electrochemical behavior of porous gas diffusion electrodes (De Sena et al.) 225
Gas diffusion electrodes
Characterization of the limiting structural effects on the electrochemical behavior of porous gas diffusion electrodes (De Sena et al.) 225

H_2 evolution
Cathodic behaviour of IrO_2 electrodes in alkaline solution. Part 2. Kinetics and electrocatalysis of H_2 evolution (Chen, Trasatti) 91
Hydrogen evolution
Hydrogen evolution studies in neutral media (Andersen et al.) 77
Hydrogen evolution on aluminium in chloride solutions (Dražić, Popić) 105
Hydrogen sorption
Thermodynamic and electrode kinetic factors in cathodic hydrogen sorption into metals and its relationship to hydrogen adsorption and poisoning (Conway, Jerkiewicz) 47

InSe
In-situ and real time monitoring of the InSe surface by atomic force microscopy with atomic resolution during electrochemical reactions (Uosaki, Koinuma) 301
Ionomer films
Enzyme electrodes based on ionomer films coated on electrodes (Harkness et al.) 261
IrO_2 electrodes
Cathodic behaviour of IrO_2 electrodes in alkaline solution. Part 2. Kinetics and electrocatalysis of H_2 evolution (Chen, Trasatti) 91
Iron oxide
Photoresponse of undoped and iodine-doped iron oxide thin film electrodes (Khan, Zhou) 407

Limiting structural effects
Characterization of the limiting structural effects on the electrochemical behavior of porous gas diffusion electrodes (De Sena et al.) 225
Lithium batteries
Analysis of electrochemical impedance spectroscopy data for lithium electrodes and lithium batteries (Bagotzky) 251
Lithium electrodes
Analysis of electrochemical impedance spectroscopy data for lithium electrodes and lithium batteries (Bagotzky) 251

Mathematical models
Analysis of electrochemical impedance spectroscopy data for lithium electrodes and lithium batteries (Bagotzky) 251
Methionine
The adsorption of methionine at a mercury electrode from aqueous solution (Parsons, Payne) 327

NaCl + KCl eutectic melt
Kinetics of oxygen reduction on fully and partially immersed Pt, Pd and Au electrodes in an NaCl + KCl eutectic melt (Numata et al.) 181
Neutral media
Hydrogen evolution studies in neutral media (Andersen et al.) 77
Noble metals
Kinetics of oxygen reduction on fully and partially immersed Pt, Pd and Au electrodes in an NaCl + KCl eutectic melt (Numata et al.) 181

Overpotential
Hydrogen pressure equivalent to overpotential on Pd + Ag alloy electrodes in acidic solutions in the presence of thiourea (Enyo, Biswas) 67
Oxygen
Enhanced electrocatalysis of oxygen reduction on platinum alloys in proton exchange membrane fuel cells (Mukerjee, Srinivasan) 201
Oxygen reduction
Enhanced electrocatalysis of oxygen reduction on platinum alloys in proton exchange membrane fuel cells (Mukerjee, Srinivasan) 201
Oxygen reduction kinetics
Kinetics of oxygen reduction on fully and partially immersed Pt, Pd and Au electrodes in an NaCl + KCl eutectic melt (Numata et al.) 181
Oxygen reduction reaction
Characterization of the limiting structural effects on the electrochemical behavior of porous gas diffusion electrodes (De Sena et al.) 225

Pd + Ag alloy
Hydrogen pressure equivalent to overpotential on Pd + Ag alloy electrodes in acidic solutions in the presence of thiourea (Enyo, Biswas) 67

Phase identification
Identification of phases in Ag+Pd alloys electrodeposited by the electrochemical ALSV technique (Jović et al.) 357
Photoresponse
Photoresponse of undoped and iodine-doped iron oxide thin film electrodes (Khan, Zhou) 407
Platinum
Enhanced electrocatalysis of oxygen reduction on platinum alloys in proton exchange membrane fuel cells (Mukerjee, Srinivasan) 201
Platinum alloys
Enhanced electrocatalysis of oxygen reduction on platinum alloys in proton exchange membrane fuel cells (Mukerjee, Srinivasan) 201
Poisoning
Thermodynamic and electrode kinetic factors in cathodic hydrogen sorption into metals and its relationship to hydrogen adsorption and poisoning (Conway, Jerkiewicz) 47
Polypyrrole
Products in solution during electrodeposition of polypyrrole (Fermín, Scharifker) 273
Polypyrrole layers
Evaluation of the first discharge redox process of doped polypyrrole (Beck, Dahlhaus) 289
Polypyrrole redox
Evaluation of the first discharge redox process of doped polypyrrole (Beck, Dahlhaus) 289
Porosity
Characterization of the limiting structural effects on the electrochemical behavior of porous gas diffusion electrodes (De Sena et al.) 225
Power sources
On solid polymer fuel cells (Dhar) 237
Proton exchange membrane fuel cells
Enhanced electrocatalysis of oxygen reduction on platinum alloys in proton exchange membrane fuel cells (Mukerjee, Srinivasan) 201
Pyrrole oligomers
Products in solution during electrodeposition of polypyrrole (Fermín, Scharifker) 273

Reaction kinetics
Hydrogen pressure equivalent to overpotential on Pd+Ag alloy electrodes in acidic solutions in the presence of thiourea (Enyo, Biswas) 67
Cathodic behaviour of IrO_2 electrodes in alkaline solution. Part 2. Kinetics and electrocatalysis of H_2 evolution (Chen, Trasatti) 91
Redox mediators
Enzyme electrodes based on ionomer films coated on electrodes (Harkness et al.) 261

III–VI semiconductors
In-situ and real time monitoring of the InSe surface by atomic force microscopy with atomic resolution during electrochemical reactions (Uosaki, Koinuma) 301
Silver adatoms
Adsorption of anions on ultrathin metal deposits on single-crystal electrodes. Part 3. Voltammetric and radiochemical study of bisulfate adsorption on Pt(111) and Pt(poly) electrodes containing silver adatoms (Zelenay et al.) 307
Solid polymers
On solid polymer fuel cells (Dhar) 237
Spin coating
Enzyme electrodes based on ionomer films coated on electrodes (Harkness et al.) 261
Surface-atom reordering
The role of slow surface-atom reordering processes in the underpotential deposition of metals. Silver underpotential deposition on platinum in acid solutions (Ocón et al.) 339
Surface monitoring
In-situ and real time monitoring of the InSe surface by atomic force microscopy with atomic resolution during electrochemical reactions (Uosaki, Koinuma) 301

Thiourea
Hydrogen pressure equivalent to overpotential on Pd+Ag alloy electrodes in acidic solutions in the presence of thiourea (Enyo, Biswas) 67

Ultrathin metal deposits
Adsorption of anions on ultrathin metal deposits on single-crystal electrodes. Part 3. Voltammetric and radiochemical study of bisulfate adsorption on Pt(111) and Pt(poly) electrodes containing silver adatoms (Zelenay et al.) 307

Underpotential deposition
Adsorption of anions on ultrathin metal deposits on single-crystal electrodes. Part 3. Voltammetric and radiochemical study of bisulfate adsorption on Pt(111) and Pt(poly) electrodes containing silver adatoms (Zelenay et al.) 307
The role of slow surface-atom reordering processes in the underpotential deposition of metals. Silver underpotential deposition on platinum in acid solutions (Ocón et al.) 339
Underpotential deposition of dithiophosphate on chalcocite (Buckley, Woods) 387

Zwitterions
The adsorption of methionine at a mercury electrode from aqueous solution (Parsons, Payne) 327
